We offer educational experiences that combine academic excellence with cultural immersion. We specialize in customized faculty-led and study abroad programs for academic groups in diverse fields. Faculty appreciate our detailed planning, logistical support, and flexible options to meet their goals. Participants can choose dates, duration, academic content, excursions, service-learning, and housing, along with workshops, tours, and services such as 24/7 support, insurance, flights, accommodations, and transport.

Language immersion and educational travel experts in Spain

Products & Services

We specialize in high-quality programs tailored for college and university students. Our programs adapt to your specific needs while giving students a unique opportunity to experience Spanish life and culture in a safe environment. Regardless of the time of year, academic level, subject, or intensity of study, we design programs specifically for your college group. With a wide range of services, including extracurricular activities and homestay accommodations, you can create a program that supports both academic achievement and personal development for your students.

Loyola Andalucía is a private Jesuit university with more than 50 years of academic tradition. Located in Andalusia, in the south of Spain, the university has campuses in Seville, Córdoba, and Granada. It offers a wide range of Undergraduate and Master's programmes across diverse fields of knowledge, including Social Sciences and Law, Engineering and Technology, as well as Health and Education. Master's and postgraduate programmes are designed to complement undergraduate studies, enabling students to specialise further in their chosen fields.

U-tad is an ambitious, cutting-edge project: A university focused entirely on the digital industry. It was founded by professionals moved by the need to hire high technical and qualified artists for the digital economy. More precisely U-tad was created by Pyro Studios (Commandos video game in the 90's) and Ilion Animation Studios (Wonder Park, Planet 51 animation movies in the 2000s). The studio was acquired in 2020 by Skydance Animation Los Angeles, and the University has boosted up amazingly during the last decade.

One of the most innovative and creative universities in Europe

Products & Services

U-tad offers Undergraduate Programs in Animation, VFX, Games Design, Games Art, Games Engineering, Computer Science, Mathematics, Physics, Digital Design and Illustration. The University is highly industry-focused, and 80% out of the 450 teachers are active industry professionals. The teaching model is based on a Learning-by-Doing method, which means that the students work intensively on building their portfolio over the 4 years of specialized education.
